Good morning Mr. Wingert,

Thanks for the information regarding your FRIA application! In mapping your request of a 3500 foot radius we noticed that this will technically overfly what appear to be some residential and commercial p surrounding your flight site. I'm sure this isn't an issue for your club, but without context it could raise some red flags for the FAA and delay your process.

To avoid this I'm attaching an image of your site on which you can draw your preferred flight boundaries in a rectangle or polygon format – whatever is best for you. This should suit your site better than a s If this image does not contain your full site feel free to substitute your own image.

If you should need any assistance please let me know – always happy to help!

Radius in Feet
3500

Check here, if your flying site boundary is more complex and a circular shape will not suffice. AMA staff will reach out to you to review your specific situation.
No

Does an airspace authorization or letter of agreement (LOA) from the FAA apply to operations at the proposed FRIA?
No

Letter of agreement (LOA) upload
{Empty}

Will this FRIA apply in controlled or uncontrolled airspace?
Uncontrolled airspace.

Description of Purpose and Need
Recreational flying of Unmanned Aircraft (UA) that are not equipped with remote identification equipment.

Expected Utilization

Provide an estimate of the expected average number of Unmanned Aircraft (UA) Flights per week.
30

Provide an estimate of the expected length of time of a typical UA flight in minutes.
15

Which of the following types of UA are expected to be regularly (on a weekly basis) operated at this site:

Fixed Wing Electric Motor, Fixed Wing Gas Engine, Helicopter Electric Motor, Helicopter Gas Engine, Multi-Copter Electric Motor

Are UA operations expected to be regularly conducted on a weekly basis during dawn or dusk?

No

Are UA operations expected to be regularly conducted on a weekly basis at night?

No

AMA will reach out soon for information on additional flying site FRIA requests. How many additional sites would your club like to submit for FRIA status?

0
